

Make it!

scary faces

You could use this idea in a **Movers** or **Flyers** class.

Need jam jars, tea light candles, black paint or markers

- Before the class, collect empty glass jars. Make sure they are clean and make a few holes in each lid. Bring the jars to the lesson.
- Learners decorate the front of each jar with a scary face with black paint or markers. If preferred, the faces don't have to be scary, of course! Learners could decorate each jar with any design they choose.
- Place a tea light candle in each jar and light it. Put the lid back on.
- Put the lit jars together in a row. If possible, darken the room. Learners could then sit in a circle around them and chant the poem!

Scary faces, scary faces
visiting our school.
Scary faces in these spaces.
They're really, really cool.

Scary faces, scary faces
Watch their smiles grow.
Scary faces in these spaces.
Are we frightened? No!
